Dear Holly:

Thank you for speaking with our Learning Design and Technology students about the nuts and bolts of our program. Many of our students seem apprehensive about the program, and your presentation helped them feel more prepared to face what is ahead.

The topics you shared with the students were both informative and encouraging! Following your presentation, many students shared key takeaways in their reflections, including insightful academic and professional connections they had made between what you shared and their personal endeavors. As someone with many obligations, we appreciate that you took time to speak with our students.

Through sharing with our students, you helped make our course an interesting and meaningful experience for our students! Thank you for sharing your time and expertise with us. We certainly appreciate it!

Sincerely,

Jennifer and Adrie
